**Step 5:** Place the new battery in the battery compartment and secure by reattaching the battery hold down cover. Plug in the battery into the battery connector and reverse the steps noted above to complete the reassembly. Dispose of the old battery properly per the instructions below.

## Battery Replacement and **Disposal Instructions** (Reference):

Batteries contain chemicals that, if released, may affect the environment and human health. Batteries should be collected separately for recycling, and recycled at a local hazardous material disposal location adhering to your country and local government regulations. To find a battery recycling drop-off location, please contact local waste disposal service or the product representative.

The battery or batteries used in PASCO products are marked with the European Union symbol for waste batteries (above) to indicate the need for separate collection and recycling. For small batteries, the symbol is printed on the packaging.

If you need further assistance, please contact Technical Support at support@pasco.com or through www.pasco.com on chat. To access chat through your browser, please enable all cookies on our website.
